

## MUTUAL RECOGNITION

An agreement is in place with the EACVI (European Association of Cardiovascular Imaging (formally EAE)) for reciprocity between BSE and EACVI processes.

Candidates who have passed the log book section of the BSE accreditation process (hold BSE Accreditation) only need to pass the EACVI written exam to obtain EACVI certification (full fee payable).

Similarly individuals holding EACVI certification need only submit a log book and disc to achieve BSE accreditation (full fee payable).

To visit the EACVI page click [here](#)

The BSE currently has no mutual recognition with any other association or society.
